## This Is The Story Of Grayling Mercy Hospital

Early in 1910, Rev. J. J. Reiss, Stanley N. Insley and Rasmus Hanson, realizing the lack of facilities for the care of the sick and injured of this area, conceived the idea of a community hospital. Mr. Hanson headed the list of contributors which was followed by many generous people of Grayling and surrounding counties by which the project was made possible. Dr. O. Palmer donated the site for the hospital building, other property was donated later.

On May 28, 1910, the contract was signed by Pratt & Koeppel of Bay City, Michigan. Grounds were then broken for the building of the frame structure at a cost of about \$25,000.00.

It was decided by the original Board of Trustees that the institution would be turned over to the Sisters of Mercy, then located in Big Rapids, Michigan. Due to the sudden death of Sister Mary Clare Sheehan, who was to be the first superintendent of Mercy Hospital, the opening was delayed until May 16, 1911. Three sisters came to take over the management of the hospital—Sister M. Veronica O'Connell, R. S. M., superintendent; Sister M. Philip Fitzgerald, R. S. M.; and Sister M. Claver Bishop, R. S. M. The hospital was then incorporated under the law of the State of Michigan. Upon their arrival they spent the evening preparing for the first Mass to be offered the following morning.

The hospital was a bare building with rough plastered walls without window drapes and just enough furniture for two wards and six rooms which were absolutely necessary for the care of patients.

A flour barrel was our first icebox, we had no dairy, laundry, bakery, sidewalk, or ambulance—just a box on a sleigh in winter and a wagon in summer. Oil lamps illuminated the hospital.

The hospital had been opened a very short time when Stanley N. Insley, M. D., was making a professional call to Frederic, when he met with a horrible train accident. This disabled him for many months, blasted all his hopes for the coming institution. The fighting spirit in him never died out, with it he regained his health, coming to the hospital daily with his poor mangled frame, not losing his alertness of mind, but hampered by fractured bones and artificial limbs, he took up his work in the hospital assisted by Dr. C. R. Keyport, M. D., whose spirit of charity and kindness made Dr. Insley forget his handicap and two doctors worked together until the death of Dr. Insley—January, 1920.

1912  
The flour barrel ice box was replaced by the crate that protected the chapel organ when shipped. This crate was placed against the building with large hooks and locks to protect the small supply of meat therein. Electricity replaced the oil lamps on part time. A limited amount of electricity in the evening from 7:00 to 9:00 P.

State Candidates  
Speak In City

A \$25,000 cut in Governor Williams' budget recommendations by the Legislature seriously hampered the Michigan Tourist Council this year, according to Democratic Attorney General Stephen J. Roth. Roth, with two other Democratic candidates on the state ticket, stopped off here Monday afternoon to talk to a five-county meeting of Democratic Party organization workers.

Harry Kelly refuses to discuss state issues during this campaign because he is actually running for the Senate. He said the "We have the spectacle of the Governor candidate running for the Senate, and four other Republicans on the ticket actually running for Governor two years ahead of their schedule."

"We Democrats hope to return Michigan government to the people of Michigan. The Michigan Public Service Commission is an example. The two Republican members have given wholesale, frequently unwarranted and unjustified increases in rates to public utilities, despite recommendations of the Commission's own rate experts to the contrary," Roth said. Roth has filed suit on behalf of the people to stop a recent \$9,000,000 increase given Michigan Bell by the Republican members of the Commission.

In a fighting speech, Democratic Secretary of State candidate Philip A. Hart said, "The Republicans have refused to adjourn the Legislature for two reasons. First, Arthur Summerfield and the Republican Policy Committee don't want the little used car financing bill to go into effect. Second, the Republicans are afraid to adjourn without acting on a long series of appointments of Governor Williams."

Hart spoke for the tax on corporation profits proposed by Governor Williams and the Democratic leadership. "It is a fair and equitable tax. Michigan taxpayers pay too large a proportion of the cost of government. We want to shift part of the burden to the great corporations who prosper in Michigan, and do not now pay an equitable part of state government costs," he said.

Hart is Commissioner of Corporations and Securities, a wounded war veteran, and vice president of the Detroit Tiger baseball club. Mrs. Margaret Price, chairman of the Michigan Youth Commission and nominee for Auditor General on the Democratic slate, said that Republican members of the State Legislature had been cruel and inhuman in making cuts in food and other allowances for children, the aged, the mentally ill and unfortunate. "These same Republican legislators voted \$60,000 for themselves for two private elevators in the State Capitol for Legislative Use Only while cutting institutional food budgets to as low as 32 cents per patient per day," Mrs. Price said.

She also said that that Crawford County had lost \$35,000 in highway construction this year because the Republican-controlled Legislature refused to enact Governor Williams' road program, and that Crawford schools had lost \$25,000 because of illegal appropriation of Teachers' Retirement Fund payments from school aid funds.

About 30 people attended the meeting which was conducted by Robert Neafie, Crawford County Democratic chairman. Among those in attendance were the four Democratic candidates for County Offices: Neafie prosecutor; A. L. Roberts, treasurer; Stanley Flower, County Clerk and Robert Nelson, sheriff.

## Four Proposals On Ballot

Voters of Michigan are to be called on to pass on three proposed amendments to the state constitution and on a fourth proposal to amend the constitution regarding the manufacture and sale of imitation butter, at the general election November 7.

Proposal No. 1 contains one item which will affect every voter, requiring 30 day residence in a city or township to qualify for registration, instead of the 20 day now required. This does not change the requirement of six months residence in the state.

The proposal also deletes from Section One, Article Three, any reference to citizens who had declared intention of becoming citizens two years and six months prior to Nov. 8, 1894 and had not completed naturalization by Jan. 1, 1924. This latter item has become purposeless, with but few exceptions, due to the passage of time.

Proposal No. 2 is of utmost importance to those who want additional state hospitals for mentally ill, epileptics, tubercular persons, and training schools for mental defectives. It would permit the state to borrow not to exceed \$65,000,000 to build or acquire such institutions and equip them, issuing bonds on the full faith and credit of the state of Michigan.

Organizations are already forming in Crawford County as well as the rest of the state to promote this measure which is held to be vitally needed.

Proposal No. 3 would amend Article 22. It defines subversion.

Dinner Honors Two  
Retiring Workers

Twenty-six fellow workers gathered last Saturday night at the Lone Pine Inn for a dinner and party honoring two retiring New York Central railroad men.

W. E. Brown of Bay City, retiring conductor and Peter Czekyski retiring section man of Grayling were the honored guests. Following the dinner, D. H. Murry of Jackson, Supervisor of the "Track" and president of the local union, presided over a bill of fare on which was inscribed their names and a gift of money. Among those present was Joe Flynn of Bay City, a retired engineer.

W. E. Brown also received a gift from Grayling Mercantile Co., and from the Sorenson Sporting Goods Store.

The group later proceeded to the John Brady cabin on Eagle Point at Lake Margrethe, where a pleasant evening was enjoyed by all.

Hospital Aid

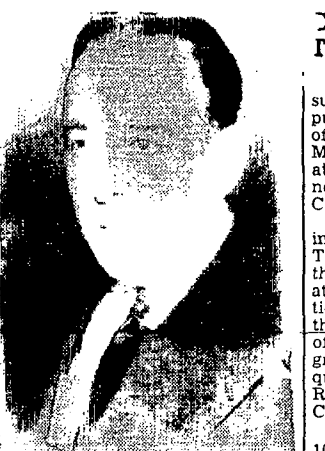

Hospital Aid met last Thursday at the Nurses Home with eighteen members in attendance. Mrs. Fred Bear and Mrs. Russell Allen were hostesses for the day.

It was revealed that the aid had purchased a wire recorder for the hospital and during the business meeting the group voted to buy a much needed typewriter for the hospital.

A special money raising project is in progress to add funds to the \$500.00 already in the building fund. Mrs. Charles Piper is chairman of this group and will be assisted by Mrs. Ernest Johnson, Mrs. Robert Neafie and Mrs. Bertha Peterson.

Mrs. Emma Von Mach donated a gun which was sold for \$35.00. The money is to be used to help finance the new money raising project.

Before the meeting closed it was voted to hold a bake sale some time in November.

GANGBUSTER... Boris Kostelants, nationally known gangbuster, has been appointed by the senate crime committee to go after gambling and vice in New York to get a line on any possible tie-in between crime and politics.

Congressman Engel To Speak Here

Congressman Albert Engel, unsuccessful candidate for the Republican nomination for Governor of Michigan will speak here next Monday noon at a dinner meeting at the Lone Pine Inn at 12 o'clock noon, it has been announced by County Chairman Ray F. Clement.

## Vikings In 1950 Grid Finale Here With Harbor Springs Friday

The Grayling Vikings are hard at work this week polishing up their offensive game and their defensive passing formations in hopes of gaining victory number two when Harbor Springs come to town Friday in the finale of the 1950 grid season.

The Vikings got their attack roaring into high gear last week end when they set what is believed to be a modern scoring in downing the Gaylord Blue Devils there by a 60 to 6 score.

Held scoreless in the first quarter due to faulty ball handling and fumbles, the Vikings roared back in the second quarter to score two touchdowns and leave the field at halftime leading by a score of 13 to 0.

The Vikings exploded upon hitting the field for the second half and had a touchdown before the second half was a minute old. Well out in front, the Grayling team played a relaxed but watchful and inspired game. Every boy of the squad turned in a fine performance as the linemen opened up huge holes for the Viking backs to ramble through.

The Blue Devils finding that it was impossible to mount a running game against the fast charging Grayling forward wall resorted to an aerial thrust. The Viking line smashed through rushing the

passer hard. Their fast hard charging smashed up several pass plays before the hurler could get the ball in the air. Bob Sunday grabbed one of the fumbles on the one yard line and the Viking horde pushed over a touchdown on the next play. Rex Hunter picked up another and rambled to pay dirt from the Gaylord 39 yard line. The Viking backs had a field day in intercepting Gaylord passes as the passer rushed hard by the Grayling linemen hurriedly threw in some cases. Duane Worden grabbed two, returning one for a touchdown and the other to the one foot line from where he ran it over on the next play.

Bill Worden, the Viking all conference fullback scored once in each of the second and third quarters and twice in the final period. His brother, Duane, scored once in the third and once in the second quarter. Jim McClain, Grayling's other fleet halfback scored once in the third and once in the fourth periods with Rex Hunter scoring his touchdown also in the final period. Duane Worden ran over two extra points with McClain scoring three and Bill Worden 1.

Statistically Grayling rolled up 8 first downs to Gaylord's 3. Total rushing for the victors was 324 yards to 36. Grayling attempted 4 passes without completing any while Gaylord hit on 5 out of an attempted 19 for 75 yards. Grayling punted but once while Gaylord was forced to kick 5 times. Grayling was penalized 5 yards while the Blue Devils were set back 15 yards by officials.

7th Day Adventists  
Offer Camp Use

The Michigan Conference of Seventh Day Adventists has offered two large camp sites for civilian disaster relief in the event of Michigan's heavily industrialized areas being bombed.

840-acre Camp Au Sable near here and a 40-acre camp ground, 12 miles west of Lansing near Grand Lodge will be made available.

Camp AuSable could provide shelter for about 150 at present besides dining facilities for a much larger number. The Grand Lodge summer camp could provide housing for 2,500 persons in addition to dining hall facilities," pointed out S. M. McCormick, director of lay activities for the Michigan conference.

"We have set up a state welfare fund, earmarking a portion of our operating budget for civilian defense to get our churches working toward defense and preparedness in case of need such as a bombing disaster," the Adventist spokesman disclosed. "The program when completely organized will embrace first aid and home nursing classes, sanitation, decontamination, and the stockpiling of medical supplies, stable foods, and bedding for use in the event of disaster."

The SDA church is the first entering this organization to offer civil defense leaders full cooperation according to their national civilian defense and disaster relief director, Carlyle B. Haynes of Washington, D. C.

## North Branch

On Friday evening, October 13, members and friends of the North Branch Bible School enjoyed a warmer roast and evening of entertainment at the club house at the pines. Last Friday our church was well represented at the heart of the north youth rally. We are happy to extend a welcome to all to attend our services, both morning and evening services on Sunday and midweek Bible study and prayer service on Wednesday evening. At the last mid week service at the Frank Woods home we were honored by the presence of two visiting ministers, Rev. Hall from Frederic and Rev. Richards of Grayling.

We are sorry to hear of the illness of Mrs. Peder Olson and sincerely wish her a speedy recovery. Mr. and Mrs. Henry Vance were callers at the home of Mrs. J. E. Kellogg on Saturday.

Mr. and Mrs. E. F. Westover are enjoying a few days at their cabin. Dr. Goodsell, Sr. and Dr. Goodsell, Jr. came up last week end to clean the Goodsell cabin for the season.

Bird hunting guests of the R. P. Johnsons on the North Branch have been Mr. and Mrs. W. Whitehouse and Mr. and Mrs. Dana Good all of Bay City and Mrs. Good's nephew of Cleveland, Ohio and Stockridge, Mich., who enjoyed a couple of days from his studies at Princeton.

The bird dog, Buck, owned by Mr. C. S. Garber was found and returned to the hunters who were using the dog. They became separated from the dog and after wandering around for some time the dog lay down to rest near Blondie dam, where he was later picked up. The construction on the new cabins at the Jack Bates place is coming along nicely.

Mr. Harold Johnson has been busy building wood, another sure sign of the fast approach of winter. Judy Wade was Sunday dinner guest of Mr. and Mrs. Frank Wood.

Mr. and Mrs. Bob Papenfus, Jerry and Janet of West Branch were visitors at the North Branch church and Sunday school services on Sunday. Later they along with the Clayton Kellogg family and Marilyn Wade were dinner guests of Mr. and Mrs. Roy Papenfus and family. A very delicious chicken dinner and home made ice cream were enjoyed by all. After dinner Nancy Papenfus, Marilyn Wade and Glenda Kellogg called on Miss Kathleen Anderson.

Glenda Kellogg attended a birthday party at the Sunday home on the Main Stream in honor of Rex Hunter on Friday evening. There is no better weather profit than a flock of wild geese. When we heard the call of the wild goose last Saturday we knew our beautiful fall weather would soon be at an end.

Mr. and Mrs. Carl Doroh attended the harvest supper at Michigan Memorial Church last week.

## Maple Forest

Mr. and Mrs. Edmund Howse drove to Battle Creek last Thursday, where Edmund was called for a physical examination for the U. S. Army Reserves.

Bessie Feldhauser returned to her duties at the A. & P. Store Tuesday, after enjoying a weeks vacation.

Fourteen members of the T. N. T. Club drove to Vanderbilt Sundayday to spend the evening with Mr. and Mrs. Jack Morey.

Mrs. Rachel Lucas of Standish

and Mr. and Mrs. David Ervin of Bay City are spending a few days with Mr. and Mrs. Arthur Howse.

Mr. and Mrs. Clarence Dodson of Birmingham spent the week end here with their son, Don Dodson and family.

Mr. and Mrs. Archie Howse visited Mr. and Mrs. C. Buxton in Johannesburg Sunday.

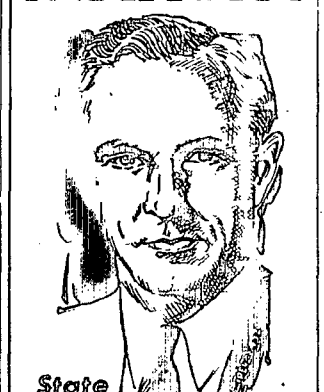

Mr. and Mrs. Jim Cram of Flint spent the week end here with their folks. Mr. and Mrs. Henry Verlinde and family.

The Town Hall has a new roof of red asphalt shingles.

Mr. and Mrs. Lewis Roe and daughter of River Rouge spent the week end with the Arthur Howse and Earl Lovely families. Put on your funny face or dress

as your favorite character and join the fun at the T. N. T. masquerade, Saturday, October 28. If you don't care for dancing, come and visit with your neighbors anyway. There will be games early in the evening followed by the grand march about 10 o'clock when prizes will be awarded to the best portrayed and funniest character. Potluck lunch of pumpkin pie or donuts.

## Tourist Rivalry Becomes Hotter

Competition among the states for tourist dollars reached a new high during the 1950 summer season, according to Robert J. Furlong, Executive Secretary of the Michigan Tourist Council.

"Five years ago two-thirds of the states were spending public funds for tourist advertising. This year all but two had legislative appropriations for this purpose," Furlong said.

He pointed out that Michigan was one of the first to recognize the potentialities of the tourist industry as a source of revenue and for some three decades has promoted its vacation attractions. This long history of advertising and promoting established for the state a clientele among the nation's tourists which meant "repeat business" year after year.

Furlong warned, however, that serious inroads are being made on that clientele as a result of the new competition from other states. "Not only are more states than ever before promoting themselves, but the advertising budgets of our old competitors are larger than they have ever been," he said. "Those of Canada and Mexico have also reached new highs."

Referring to a nation-wide survey by the Crowell-Collier Publishing Co., Furlong commented that Michigan ranked third in the number of tourists entertained in 1949. While the state maintained three enviable positions among the leaders, it dropped to 13th place in the amount of state appropriations for tourist promotion.

The unprecedented competition among the states is due to a realization that the tourist industry has become and will remain a vital factor in the general economy of each state and of the nation, according to the Council official.

"It is true," he said, "that bad weather had a crippling effect on the industry in Michigan and throughout the Midwest during the past summer season. But this by no means implies that a permanent downward trend is under way. America has acquired the vacation habit and there is every reason to believe that the habit is a permanent one."

To support his statement, Furlong referred to a report of the Automobile Manufacturers Association which shows that about nine in every ten job holders in the nation are now covered by some type of vacation payment plan. Public health authorities, he said, have gone on record with the statement that vacations constitute one of the biggest factors in checking the increase in mental and physical illness.

He also pointed out that Dr. Harold G. Moulton, of the Brookings Institute, sees a rosy future for the nation's tourist industry during the next century. Dr. Moulton states that expenditures for recreation and travel will increase 33 times what they are now. "This," Dr. Moulton says, "is by far the greatest increase in any of the five primary components of living standards. The others are food and nutrition; shelter and home maintenance; attire and personal care; education and health."

Furlong concluded that if Michigan is to hold the gains it has made and in addition keep pace with its competitors in the tourist industry, there can be no relaxing in its efforts to promote and develop its vacation advantages.

"We must remember," he said, "that the tourist industry is a major source of revenue to our entire state and that in two-thirds of Michigan it is the number one income producer."

as an act or advocacy of an act intended to overthrow the form of government of the United States or the state, by force, violence or unlawful means. It states subversion is a crime against the state and holds it to be an abuse of rights secured by Section 4 of the constitution, stating that rights secured thereby cannot be valid defense in any trial for subversion.

Proposal No. 4 is a referendum on Act 1, PA of 1949, to prevent deception in the manufacture or sale of imitation butter. The act makes it illegal to manufacture or offer for sale any butter substitute which cannot lawfully be sold and transported interstate under the federal food, drug and cosmetic act. It does not prohibit the manufacture or sale of yellow colored or uncolored oleo which is labeled properly to inform the public of its true character.

## Hospital Story

(Continued from Page 1)

M. on Wednesdays and Saturdays was allowed.

A covered box placed on sleds in winter and wagons in summer used for transporting patients to and from the hospital was an improvement.

**1913**

Through a tax sale the little park across the street from the hospital was acquired. Fr. J. J. Reiss, Marius Hanson and Mr. A. Bates bought it and gave the deed to the Sisters of Mercy, Mercy Hospital, Grayling. At the present time Louis F. Hayes bought the property and built a very fine office on it. The first grading of the grounds was very limited, the sand would not produce a green lawn, so had to be brought in from far away and transplanted in front of the hospital. Trees and shrubbery were planted only to die from want of nourishment and water. During this year, the X-Ray Department was opened.

**1914**

In 1914 two nurses graduated from the hospital and with the added number of trained nurses the public's confidence in the hospital became apparent. When the private rooms of the hospital became occupied and surgery was successfully done, additional surgical supplies became a demand and patients began to increase. We bought cows, had a dairy farm and began to sell milk.

**1915 to 1920**

With a determined will, the grounds were graded and trees and shrubbery were planted once more—this time with success. A screened sun porch was built, then a combination building was built with funds collected from the woodsmen by the Sisters. The first ambulance—horse drawn—was purchased by the Sisters.

**1920 to 1927**

In 1920 more equipment—a Clinical Laboratory, an electric pump, and new furnishings were added. A Mercy Hospital sign illuminated by electricity was placed in front to identify the hospital to the public.

**1927 to 1931**

A new operating room table, a tile floor and many other furnishings were made possible by Mrs. Helen B. Marshall, Mrs. R. Hanson and Mrs. John Ladd. An elevator was installed by Walter Murphy through the efforts of Mrs. Herbert W. Wolf of New York. An oil-burner furnace and hot water heater and an electric washer were installed.

**1936**

With the establishment of several CCC Camps for boys surrounding this area, the capacity of our hospital was overcrowded. It was decided therefore to rent a house for the nurses who were occupying the third floor for their quarters. Through the generosity of Mrs. Margaret Graham, the beautiful Graham Home was given as a gift for the nurses home.

The third floor was then opened for patients, which made it a fifty-bed hospital.

Up to 1932 the hospital main-

tained a three year training School for graduate nurses. At this time the Michigan Board of Registration of Nurses, closed many small schools and Grayling was among them. This training school was replaced by a Trained Attendant School which met the demands of hospital services.

Our Chapel is small and overcrowded. The increase of nurses and patients would appreciate a larger one. Our Chaplain is Rev. John Breitenstein who visits the patients nearly every day.

When the hospital opened, three doctors served the sick and injured. At present we have twelve on our staff. M. A. Martzowka, chief of Staff; S. A. Stealy, secretary; C. R. Keyport, C. G. Clippert, L. F. Hayes, B. E. Henig, R. C. Peckham, G. L. McKillop, R. C. Libke, A. L. Hoening, L. O. Kirker, and D. Graham. Dr. C. R. Keyport was on the staff when the hospital opened.

The hospital is located on M-27, a beautiful State Highway, extending from Detroit to the Straits of Mackinaw. It is modernly

## Christmas Tree Harvest Season Just Ahead

Although Christmas is about nine weeks away, already work is under way for this season's supply of Christmas trees which usually amounts to a million evergreen trees, state C. A. Boyer, Chief of the Bureau of Plant Industry, Michigan Department of Agriculture.

As a protection to land owners the 1933 Michigan Legislature passed Act No. 124 known as the Christmas Tree Act, which governs the removal and transportation of both Christmas trees and evergreen boughs. This Act prohibits the cutting and removal or transportation of such stock without written consent of the owner, which means a legal bill of sale must accompany the evergreens. Such a legal bill of sale shows the number of trees or amount of boughs, the exact legal description of land where they are grown, and must be signed by the legal land owner and two witnesses.

The Bureau of Plant Industry is responsible for the enforcement of this Act in co-operation with the Michigan State Police, conservation officers, county sheriffs, and county agricultural agents. The forms for written consent can be secured from any of these sources. As the holiday season approaches, checking stations will be established on highways leading from Northern Michigan and all persons transporting cut Christmas trees, evergreen boughs, etc., are required to stop at these stations and present a legal bill of sale and consent. In addition, free lance inspectors constantly visit the areas in Northern Michigan where Christmas trees are cut and check metropolitan areas where trees and boughs are being offered

for sale. Thus, anyone cutting, transporting, or selling Christmas greens must be prepared at all times to show a legal bill of sale for the trees or boughs that he has in his possession.

These requirements for the transportation of cut trees should not be confused with those for the movement of trees, shrubs or vines with roots attached. To transport or move trees, shrubs, etc., from one property to another, one must have a certificate showing that the plants have been inspected and found free of dangerous insect pests and plant diseases. Arrangements for inspection may be made by writing the Bureau of Plant Industry, State Department of Agriculture at Lansing.

THERE'S a change of the year for your Buick, too, stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

## From where I sit... by Joe Marsh

**You Can't Build A Better Mousetrap!**

"They're not the best-looking boarders a man ever had," Hack Turner said one day, "and they've got awful tempers. But I've found it pays to have 'em around."

Hack was talking about a family of barn owls, nesting in his silo this year. Some folks believe those little white-faced screechers kill chickens—and ought to be shot on sight. But Hack disagrees.

"Up at State University they've studied barn owls for years—and never known one to eat a chicken. On the other hand, a daddy owl can clean up around 300 mice a

month. Farmers that kill barn owls are throwing away the best mousetraps known to man!"

From where I sit, when someone shows a prejudice against any group of animals or humans—it's usually just based on misunderstanding. For instance, some folks are plumb intolerant about those of us who enjoy an occasional quiet glass of beer. Get to really know us and you're liable to find we're pretty good birds at that!
